

Instructions for Running Reports

1. Log on to QPTM
2. Select the pipeline (TSP), select "OK".
3. Under CAW Screens, select Reporting

1. Under "Report Type", select category type.
2. Under "Report", select needed report. Once the report has been selected, parameters will populate in the numbered fields below.
3. The areas in white are those parameters already selected for the report; the areas in grey are those which you may pick.
4. To pick a parameter you **must uncheck the box** in the "Ignore Param" column. It will turn white. The "Value" column may be modified to select your needed criteria.
5. Once all parameters are selected, the press "Execute".

HELPFUL REPORTS FOR SERVICE REQUESTERS:

ALLOCATIONS

RPT_ALRX_02

Up/Dn Statement for Service Requester (External)

Description: Provides the allocated, scheduled, and nominated volume for each location and service requester.

ALLOCATIONS

RPT_ALRX03

Service Request Statement of Gas Allocation

Commonly Used QPTM (Quorum) Reports

Description: Provides the allocated, scheduled, and nominated volume for each location and service requester.

CAPACITY ALLOCATION SCHEDULING RPT_CAX15 Scheduled Quantity for Service Requester (External)

Description: Displays the scheduled quantities for all nominations for a given gas day and service requester.

INVENTORY RPT_INX02 Customer Account Monthly Imbalance (External)

Description: Displays the current imbalance by contract for the specific production or accounting month.

INVENTORY RPT_INX03 Storage Contract Daily Activity (External)

Description: Displays daily beginning and ending storage balances and associated storage activity.

INVENTORY RPT_INX05 Cumulative Storage Balances

Description: Provides the cumulative storage balance for each contract, represented by the Dth column, and the current month injection and withdrawal activity for the input accounting month.

INVENTORY RPT_INX10 Posted Imbalances (External)

Description: Displays the imbalance quantity that is posted online for each service requester and the associated contact information for a given production month.

INVENTORY RPT_INX14 Storage Information

Description: Provides the daily storage activity and balance by contract, as well as the contract MSQ, MIDQ, and MDWQ.

INVENTORY

Commonly Used QPTM (Quorum) Reports

RPT_INX16 Shipper Imbalance

Description: Displays the current imbalance for each service requester and contract, as well as the allocations that created the imbalance.

INVENTORY RPT_INX40 Daily Imbalances – Shows Daily Detail (External)

Description: Displays the customer account balance data for each customer account, production month, and accounting month; and the associated daily allocated receipts and deliveries that make up the monthly imbalance.

INVENTORY RPT_INX51 Agreement Balancing Statement

Description: The Agreement Balancing Statement is used to confirm imbalances with counterparties.

NOMINATIONS RPT_ALRX17 Monthly Activity – Up/Dn

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month.

NOMINATIONS RPT_ALRX18 Monthly Activity – Path

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month.

NOMINATIONS RPT_NNX01 Path Balance (External)

Description: Displays nominated, confirmed and scheduled quantities for each nominated path for a given gas day and cycle, by service requester and contract.

NOMINATIONS RPT_NNX02 Location Balance (External)

Commonly Used QPTM (Quorum) Reports

Description: Displays the total nominated, confirmed and scheduled quantities for each nominated location for a specified gas day and cycle, by service requester.

NOMINATIONS

RPT_NNX03

Pool Balance (External)

Description: Displays nominated and scheduled quantities for any location where the Allow title Transfer attribute is checked for a specified gas day and cycle.

NOMINATIONS

RPT_NNX08

Daily Activity Grouped by Service Requester (External)

Description: Displays nomination activity by service requester for a specified gas day.

NOMINATIONS

RPT_NNX09

Nomination Cycle Comparison (External)

Description: Displays the nominated quantities for the two input gas days and cycles, and the quantity and percent difference between the two gas days and/or cycles.

NOMINATIONS

RPT_NNX12

Nomination Error Report

Description: Displays invalid nominations for the specified status (either Business Invalid BI) or Line Invalid LI) for a given date range and cycle.

NOMINATIONS

RPT_NNX21

Monthly Nom Activity – Up/Dn

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month.

NOMINATIONS

RPT_NNX22

Monthly Nom Activity – Path

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month.

NOMINATIONS

Commonly Used QPTM (Quorum) Reports

RPT_NNX33 Daily Nomination

Description: Displays the nominated quantities for each location and shipper, for every day in a given production month.

NOMINATIONS RONK_MEASC Measurement Comparison

Description: Displays comparison of measurement in MMBTU and MCF by point between two months.

NOMINATIONS RONK_MEASD Measurement Difference

Description: Displays the nominated quantities versus measured quantities by day by specific meter.

NOMINATIONS RONK_OPRAV Operator Allocated Volumes

Description: Displays Scheduled versus Allocated by Operator.

NOMINATIONS RPONK_PLMS Pipeline Monthly Summary

Description: Displays the nominated quantities by contract by point for a given month.

NOMINATIONS RPONK_VOLH Volume History of Specific Station

Description: Displays a volume history for a specific station by month and year.

HELPFUL REPORTS FOR OPERATORS:

ALLOCATIONS RPT_ALRX01 Operator Statement (External)

Description: Provides the allocated, scheduled, and nominated volume for each location and service requester.

Commonly Used QPTM (Quorum) Reports

ALLOCATIONS RONT_ALOMR OBA Monitoring Report

Description: Displays Scheduled versus measured volumes by day for a specific meter.

CAPACITY ALLOCATION SCHEDULING RPT_CAX14 Scheduled Quantity for Operator (External)

Description: Displays the scheduled quantities for each up and down nomination for a given gas day and cycle.

HELPFUL REPORTS (OTHER):

ALLOCATIONS RPT_ALRX04 Measurement Information (External)

Description: Provides a daily detail of measured energy quantity and volume for each location. The report must be run by either production month or accounting month, but not both.

ALLOCATIONS RPT_ALRX05 Location M-T-D Imbalance

Description: Displays the total allocated and scheduled quantity for each location for a given month. The report also displays the associated location imbalance for each location, which is the difference between the scheduled and allocated quantities, and the imbalance percent, calculated as the imbalance over the allocated quantity.

ALLOCATIONS RPT_ALRX07 Aggregate Location Monthly

Description: Displays the total measured volumes and quantities for the child locations behind an aggregate location for a given month.

ALLOCATIONS RPT_ALRX08 Aggregate Location Daily

Description: Displays the measured volumes and quantities for the child locations behind an aggregate location for each day in a given month.

Commonly Used QPTM (Quorum) Reports

ALLOCATIONS RPT_ALRX16 OBA Imbalance

Description: Provides a summary of allocated receipt and deliveries for OBA contracts for the input month and the ending balance from the previous month.

ALLOCATIONS RPT_ALRX17 Monthly Activity – Up/Dn

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month. The data is grouped by location, service requester, contract, upstream or down stream party/contract, and package id. The buy and sell records are displayed.

ALLOCATIONS RPT_ALRX18 Monthly Activity-Path

Description: Displays nominated, confirmed, scheduled and allocated quantities for each day in a given production month. The data is grouped by location, service requester, contract, and path location. The path records are displayed.

ALLOCATIONS RPT_ALRX51 Allocated-To-Scheduled Comparison (Contract Summary)(External)

Description: Displays the total allocated and scheduled quantity for each contract for a given month. The report also displays the associated imbalance for each contract, which is the difference between the scheduled and allocated quantities, and the imbalance percent, calculated as the imbalance over the allocated quantity.

BILLING RPTBLRX_00 Billing – Invoice Documents – External

Description: Displays Invoice Documents by Business Party.

CAPACITY ALLOCATION SCHEDULING RPT_CAX21 Segment Capacity (External)

Description: Displays each pipeline segment and its associated segment capacity, and the nominated, confirmed and scheduled quantities flowing through the segment for a given gas day and cycle.

CONFIRMATIONS**RPT_CFX01****Nominated Volumes Not Scheduled (External)**

Description: Displays up and down nominations where the scheduled quantity is different than the nominated quantity, for a given gas day and cycle.

CONFIRMATIONS**RPT_CFX02****Lesser of Rule Warning (External)**

Description: Displays up and down nominations where the confirmed quantity is different than the nominated quantity, for a given gas day and cycle.

CONFIRMATIONS**RPT_CFX03****Up/Dn Confirmations (External)**

Description: Displays the confirmed quantities for each up and down nomination, for a given gas day and cycle.

CONFIRMATIONS**RPT_CFX05****Path Confirmed Volumes Not Scheduled (External)**

Description: Displays path nominations for a given gas day and cycle where the scheduled quantity does not equal the nominated quantity, and the associated reduction reason.

CONFIRMATIONS**RPT_CFX07****Path Confirmations (by location, operator, or BP)(External)**

Description: Displays the confirmed quantities for each path nomination, for a given gas day and cycle.

CONFIRMATIONS**RPT_CFX08****Up/Dn Monthly Online Confirmation (External)**

Description: Displays the final nominated or confirmed quantities for each day in a given production month, grouped by location or shipper.

CONTRACTS**RPT_CWX04**

Commonly Used QPTM (Quorum) Reports

Contract Brief – Transportation Contract (External)

Description: Displays details for a given transportation contract and as of date, including the effective amendment number, any agents associated with the contract, primary point pairs and associated MDQ, and any contacts associated with the contract.

CONTRACTS

RPT_CWX05

Contract Brief – Storage Contract

Description: Displays details for a given storage contract and as of date, including the effective amendment number, any agents associated with the contract, current storage balance and MSQ, and any contacts associated with the contract.

CONTRACTS

RPT_CWX06

Contract Brief – PAL Contract

Description: Displays details for a given PAL contract and as of date, including the effective amendment number, any agents associated with the contract, the cumulative injection and withdrawal quantity by month and amendment, and the detail injection and withdrawal quantity for the effective amendment.
